

Test Document for PDF Upload

This is a test PDF document created for testing the PDF upload functionality.

Chapter 1: Introduction

This document contains sample text to test the PDF text extraction capabilities. The system should be able to extract this text and process it for AI-powered question generation and chat functionality.

Chapter 2: Features

- PDF text extraction
- AI-powered question generation
- Interactive chat with document content
- Intelligent learning assistance

Chapter 3: Testing

This document serves as a test case to verify that:

1. PDF files can be uploaded successfully
2. Text extraction works correctly
3. The logging system functions properly
4. No errors occur during the upload process

Conclusion:

If you can read this text after uploading, the system is working correctly!
